by Honeywell

Optical smoke detector ES Detect

Features:

- Optimally matched to the ES Line system
- · With multisensor detectors for the detection of all fires, even under the most difficult operating conditions
- · Up to 30 detectors per detection group
- · Uniform response sensitivity of the detector for all different types of fire for the multisensor detectors
- · Large distance between signal and interference magnitudes due to special sensor and electronics design for suppressing electromagnetic influences
- · Automatic adaptation to varying environmental influences
- · Electronic compensation also called driftcompensation of long-term influences of contamination or aging
- · High reliability against false alarms by temporal evaluation of different sensor criteria, with built-in insect screen and sealed against rear air flow entry
- · Exclusion of signal forms not typical of fires through special filter algorithms
- · Automatic self-monitoring of the detector electronics
- · Automatic self-monitoring of sensors for function and condition
- · Designation of the heat detector by a black ring on the light pipe
- · Hours of operation, alarm and fault counter in each
- · Operation data retrieval of all detectors of a group with standard service PC and field bus interface
- · Detector LED for alarm display and as an identification display in the service (for maintenance with 8000 tools)
- · Standard socket and relay base
- · Socket adapter for ceiling installation
- · Dust caps optional for fire detectors and detector
- · Kit for suspended mounting

Part-No.: 800371 Approval: VdS

Scattered-light smoke detector for reliable early detection of fires. Fire detector with decentralized intelligence, automatic function self-test, automatic environmental adaptation, alarm and operating data storage and alarm display.

A remote indicator can also be connected.

Common technical data

8 ... 42 V DC Operating voltage Quiescent current @ 9 V DC 30 µA Alarm current @ 9 V DC 9 mA Area to be monitored 110 m² Height to be monitored 12 m

0 m/s ... 25,4 m/s Air velocity -20 °C ... 72 °C Application temperature Storage temperature -25 °C ... 75 °C Air humidity < 95 %

Type of protection IP 40 with base, up to IP 43 with base and option

Material

Color white, similar to RAL 9010

Weight approx. 110 g **Detector specification**

Dimensions Ø: 117 mm H: 49 mm (62 mm incl. detector base)

Special colors on request! For the maintenance of the ES Detect detectors, the programming software tools 8000 from version V1.24 in combination with the red EOL-I (part number 808626) is required. In order to pass through existing wires, the WAGO grips (e.g., type 243-204 (Ø 0.5-1 mm) or 273/104 (0.75-2.5 mm²), can be integrated into the detector base.

Without detector base

Accessories:

767800 Assembly bracket
